
Leadership and Management System

Purpose

The purpose of this policy is to define the Valley School District's leadership and management system.

Scope

This policy applies to District administrators, managers and staff.

Policy

1. The leadership and management system of Valley School District shall be a system of continual improvement, based on the Deming System of Profound Knowledge, with the goal of improving the quality of learning provided by the District.
2. The Superintendent shall provide general leadership and shall be responsible for implementing the Deming system throughout the district.
3. The Superintendent shall provide quality learning and improvement tools, resources and training opportunities to district administrators, managers and staff.

Related Procedures

To be determined
