## **Fundraising Activities Involving Students**

### **Purpose**

This policy permits fundraising activities by approved school organizations, school-parents groups and out-of-district organizations with the consent of the Superintendent.

### **Scope**

This policy applies to the Superintendent, administrators, staff, students, parents and guardians, volunteers, and community members and organizations.

### **Policy**

1. The Board of Directors acknowledge that the solicitation of funds from students, staff and citizens must be limited because students are a captive audience and because solicitation can disrupt the program of the schools. Solicitation and collection of money by students for any purpose, including the collection of money in exchange for any goods or services for the benefit of an approved school organization or charitable purpose, may be permitted by the Superintendent or designee(s) providing that the instructional program is not adversely affected.
2. The Superintendent or designee(s) will establish procedures for the solicitation of funds by approved school organizations, official school-parent groups and by outside organizations. The principal(s) or designee will distribute a copy of these procedures to each student organization granted permission to solicit funds.
